## GERMINATION

In 1974, when Crossroads Community was established under the surrealistic Army Street freeway interchange, six-acres of San Francisco were barren, deserted and littered with trash.

The original plan was to create a unique multi-cultural, agricultural, art and environmental learning center in the midst of an urban setting.

This singular vision of an urban farm, which would begin to recreate the rhythms of nature in the midst of metropolitan cacophony, fired the fertile imaginations of a vast company of supporters. And despite, or perhaps in response to naysayers, fear of hoof and mouth disease, and other dire forecasts having to do with upsetting the apple cart, the farm blossomed and grew. Neighborhood residents, artists, gardeners and other performers supplied the sweat equity for a new alchemy which transforms concrete to green and inspiration to reality.

12 years later, five acres of that original concrete wasteland have evolved into the newest addition to the park system of the City and County of San Francisco. Staff continues to work with officialdom and other compatriots in the development of a significant community open space.

**The gardens** Concrete gives way to vegetables and floral rainbows in the farm's gardens. Toddlers to seniors join the action from watering to harvesting collective and individual plots.

**The Animal Theater** Chickens, ducks, geese, rabbits, goats and people are the players in the unending performance of the Animal Theater. Visitors can feed, gather eggs or just sit back and watch.

**The Farmhouse** A popular site for social gatherings, the farmhouse offers a country kitchen, piano, gallery and main floor for meetings, rehearsals, workshops and exhibits. Call for rental information.

**Barn Theater** This former industrial warehouse reverberates with the echo of performance events rushing to meet the freeway's roar. Its 4800 square feet are also available for community use.

**Classes & Tours** The variety of available spaces offers rich ground for fertile imaginations. Teachers and other groups may use the facilities for classes and field trips.

**After-school** The farm sponsors its own after-school and weekend programs where neighbors pay a visit to paint or plant, make puppets and plays, and engage in any number of interesting activities.

For information, call 826-4290.

The cows haven't come home, but the budget cuts have. We need your support.

## SKATERS' UNION

STATE OF CALIFORNIA
SKATEBOARD LAWS...
D.M.V. SKATERS'
HANDBOOK...
CITY OF S.F. SKATE-
BOARD LAWS.

*Our thanks to the California Highway Patrol's Office of Public Affairs for permission to reprint their "Skateboarders' Safety Handbook."*

**1**

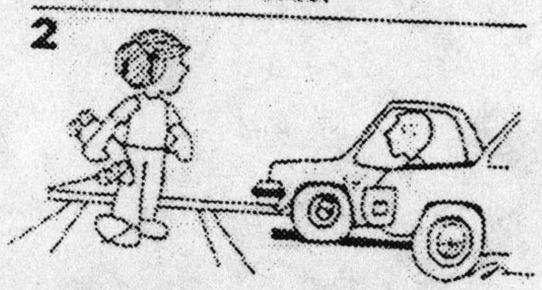

**Introduction**

A few safety tips addressed to California's skateboard riders.

This handbook has been prepared with your safety in mind. It is designed to point out a few legal items and some suggestions that might increase your fun in skateboarding by reducing the likelihood of injury.

NOTE: This handbook condenses or paraphrases the actual language of the California Vehicle Code.

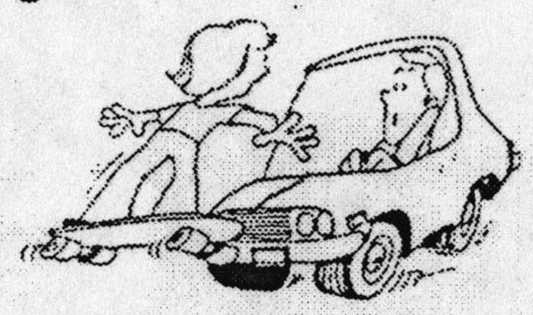

**2**

As a skateboarder, you have all the rights of a pedestrian. Likewise, you must obey the same rules as a pedestrian (*V.C. Sec. 467*). Let's take a look at your rights and duties while riding your skateboard.

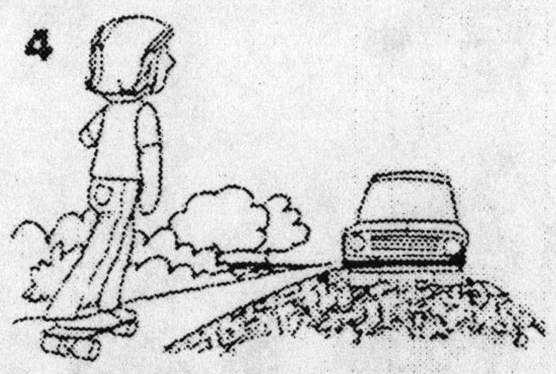

Vehicles are required to stop at intersections to permit pedestrians to cross the street (*V.C. Sec. 21951*). However, before you cross in front of a stopped vehicle, be sure to check and see if other vehicles are stopped to allow you to safely cross.

**3**

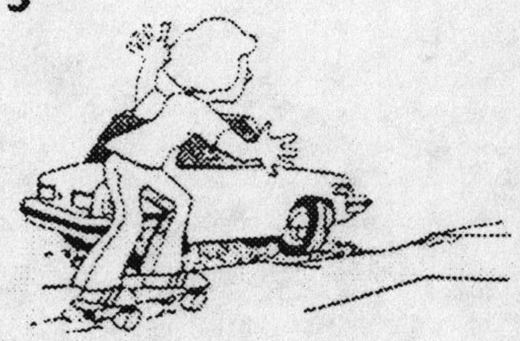

You must not suddenly leave the sidewalk or freestyle down your driveway into the path of a vehicle which is close enough to be a danger to you (*V.C. Sec. 21950 & 21954*). This applies even though you are crossing at an intersection. The law says that a driver must take care for the safety of any pedestrian but, IF THE DRIVER CAN'T STOP IN TIME, THE LAW WON'T HELP YOU!

**4**

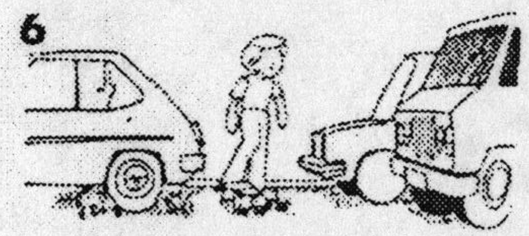

Remember, public streets and highways are designed and built primarily with motor vehicles in mind. You should use the sidewalks when they are available. But, when you elect to use the roadway to skateboard on, the law requires you to use the extreme left-hand edge of the roadway; facing oncoming traffic (*V.C. Sec. 21956*)

**5**

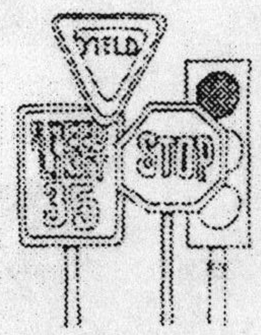

The driver of a motor vehicle preparing to cross a sidewalk is required to yield the right-of-way to any pedestrian approaching. However, most people walk at about 3 to 4 mph and most skateboarders travel at speeds well over that. So be aware that the driver may not see you or may think he has time to cross before you get there (*V.C. Sec. 21952*).

**6**

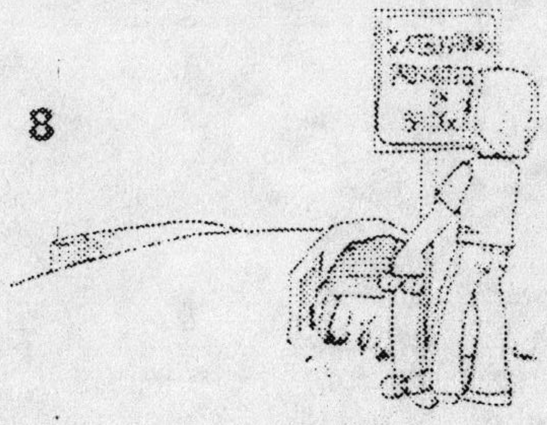

If you are crossing the street outside of a crosswalk you are required to yield the right-of-way to all vehicles approaching. Keep in mind that you will always come out second best when battling with a car or truck (*V.C. Sec. 21954a*).

**7**

As a skateboarder, you are required to obey traffic control signs and signals. This means posted speed limits, stop signs, yield right-of-way signs, and traffic signals (*V.C. Sec. 21461.5*)

**8**

You are not permitted on any bridge or highway overcrossing unless a sidewalk is provided and a sign is posted saying that you may use it. Many cities and counties have posted these overcrossings prohibiting skateboarding, for good reasons — YOUR SAFETY! (*V.C. Sec. 21114.6*).

**9**

It has been pointed out that you may use the street for skateboarding but, it is certainly not recommended because of obvious hazards involved.

Skateboarders always come out second best when hassled by a car or bus REMEMBER: A SKATEBOARDER IN THE STREET HAS NO DEFENSE AGAINST A SUDDEN AND UNFORESEEN HAZARD!

**10**

Motorized skateboards cannot be used on sidewalks, streets or any part of a highway. They cannot be used on any bikeway, hiking or recreational trail either (*V.C. Sec. 21968*).

THERE ARE THOSE WHOSE STYLE IS WITHOUT COMPROMISE. STRIPPED EQUALLY OF RULE AND CHAOS. INDIVIDUALS OF STYLE. FUNDAMENTALLY UNIQUE. | SAN FRANCISCO,

**To Be Governed** is to be watched over, inspected, spied upon, directed, regulated as, regulated, docketed, indoctrinated, preached at, controlled, assessed, weighed, censored, ordered about, by men who have neither the right, nor the knowledge, nor the virtue. To be governed means to be at each operation, at each transaction, at each movement, noted, registered, controlled, taxed, stamped, measured, valued, assessed, patented, licensed, authorized, endorsed, admonished, hampered, reformed, rebuked, arrested. It is to be, on the pretext of the general interest, taxed, drilled, held to ransom, exploited, monopolized, extorted, squeezed, hoaxed, robbed. Then at the least resistance, at the first word of complaint, to be repressed, fined, abused, annoyed, followed, bullied, beaten, disarmed, garotted, imprisoned, machine-gunned, judged, condemned, deported, flayed, said, betrayed, and finally mocked, ridiculed, insulted, dishonoured. Such is government, such is justice, such is morality.

– Pierre-Joseph Proudhon

**To clean needles:**

Draw bleach into the needle and squirt it out. Repeat several times to kill the virus. Then draw clean water into the needle and squirt it out. Repeat several times to rinse out the bleach. Do not shoot the bleach. Rubbing alcohol can be used instead of bleach, but beer or wine cannot.

Original pamphlet produced by the **Prostitutes Safe Sex Project**. Funded and distributed in Canada by the **AIDS Committee of Toronto**, Box 55, Station F, Toronto M4Y 2L4, CANADA. Thanks to the Canadian Organization for the Rights of Prostitutes, Joe Lobo (typesetting), Danny Moyen (layout), Richard Redwood (illustrations), Danny Cockerline (writing), and Xtra! and the PWA Foundation (production facilities) Sept 1988.

Retypeset and distributed by HOMOCORE/World Power Systems, Box 77731, San Francisco CA 94107 USA, illustrated by Zanne, 1290 Hayes St #7, San Francisco CA 94117. Jan 1991

## WHY SAFER SEX?

Anyone could have the virus that causes AIDS. Most men and women get the virus by fucking without a condom or by sharing a needle for shooting drugs.

The AIDS virus is carried in blood, cum or cunt juice. It must get in your blood to infect you. It can get in through an ass or cunt or through sores, cuts or breaks in your skin. Having sores from other sexually transmitted diseases (STDs) can make it easier to get or give someone the AIDS virus. Some STDs which cause sores are herpes, syphilis and venereal warts.

You can't tell by looking if someone has the AIDS virus. Someone could have the virus for many years and not know it. Many people have gotten the virus from a partner they thought was monogamous and healthy.

It's better to have safer sex than be sorry!

## GOING DOWN

There may be a chance of getting AIDS if you get cum, blood or cunt juice into cuts or sores in your mouth. If you have cuts or sores, try a condom for sucking cock. A condom can be cut up and spread over a cunt or asshole before licking.

If you don't have cuts in your mouth, you may still want to use condoms for going down. You can get STDs like herpes and syphilis from cocksucking, cuntlicking and rimming (licking assholes). Rimming can also give you parasites and

hepatitis B. (Hepatitis B can be deadly; ask a doctor about the hepatitis vaccine.)

If you don't use condoms for going down, you can lower the chance of getting an STD if you:

1. Do not brush your teeth before going down. This makes openings germs can get in through.
2. Wash cocks, cunts or assholes with soap and hot water first.
3. Do not lick anything that has sores on it. Yuk!
4. Gargle with mouthwash after to kill germs.

## GET BUTCH WITH GERMS!

If you always use condoms for fucking and if you never share a needle for shooting drugs, your chance of getting AIDS is almost zero. (Condoms can also stop herpes, syphilis and gonorrhea.)

There is still a small chance that condoms can break or leak. See the CUM PREPARED section on the back to find out how to lower the risk of this happening.

To be even safer, guys can pull out before cumming while using a condom. Shooting on someone can be great fun for you and your partner. And it's safe!

## SAFE STUFF!

**Kissing:** You cannot get AIDS from spit or sweat. It is safe to kiss and lick mouths, nipples, armpits, muscles, balls, ass cheeks, feet...

**Hugging, touching, massage:** All safe!

**Jacking off and fingering:** Safe. But don't get cum, blood or cunt juice into cuts or sores.

## SAFER SEX. MAKE IT YOUR BUSINESS.

**This pamphlet was produced by prostitutes. Safer sex is our business.**

## CUM PREPARED!

Use latex condoms. Lambskin condoms leak. Use water-based lube (Probe, ForePlay, K-Y). Oil-based lubes (Vaseline, handcream) break latex.

Putting a condom on:

1. If cock is uncut, pull foreskin back first.
2. Do not put lube on cock before putting condom on. The condom could slip off.
3. If condom doesn't have a nipple leave half inch at the tip to catch cum.
4. Squeeze tip when rolling down to keep out air bubbles. Bubbles can break condoms.
5. Use lots of lube – especially for ass fucking. Add more lube often. Dry condoms break more easily.
6. Guys. If you cum in the condom while fucking, hold the condom at the bottom, and pull out right away.
7. Throw condom away and wash up after.

If you're afraid of a condom breaking, use two. Put a non-lubricated condom on first so the second one doesn't slip off. Lube the outside of the second one, and go to it!

## IN CASE OF EMERGENCY

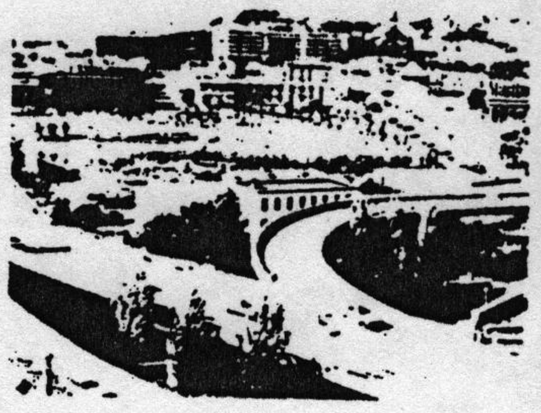

If cum gets in your cunt, squirt in Delfen or Emco foam with nonoxynol-9. Nonoxynol-9 might kill the AIDS virus. Test the foam on your wrist. If you get a rash, try another brand. It is not safe to use nonoxynol-9 instead of condoms. You can use it with condoms. Some condoms and lube contain nonoxynol-9. NOTE: Using nonoxynol-9 in your ass could cause irritation.

## NEEDLE POINTS

It only takes one shared needle to give you AIDS. Don't share needles. If you have to share a needle for shooting drugs, piercing or tattoos, clean it first.

CRISIS AT THE FARM

## EVICTION OF THE FARM BY MARILYN GOODE

The Farm first rented the buildings at 1499 Potrero, under the freeway on ramp, in 1974. Through the work of artists, performers, gardeners, youth workers and hundreds of volunteers The Farm, also called Crossroads Community, has become one of San Francisco's most diverse and accesible community cultural centers. The Farm, situated on the junction of four socially and environmentally divergent neighborhoods, has been able to merge education, culture and community offering low cost, quality programs for over a decade.

Projects like The Farm and Artist's live in workspaces and the community cultural centers find it harder and harder to pass on a cultural tradition as San Francisco properties escalate and are sold out to developers. Marilyn Goode is in negotiations with another arts group, ARTSDECO who has come forward with a plan to revitalize the cultural facilities and continue with the kinds of environmental and arts programs. So far Goode is refusing to sell the building, rejecting ARTSDECO's offer of 1.4 million dollars. Ms. Goode has not made her plans public as to what she plans to do with the spaces.

Ms. Goode ignores pleas from the community and from city politicians to sell the properties. These properties were worth next to nothing when the first Farm people moved in. All building improvements were done at the labor and expense of The Farm. Private developers and a culturally incensitive city administration has begun its elimination of the marginalized.

Urban farmers rightfully fall in this catagory. It is probably safe to say that all arts groups in the city are feeling this marginalization and many face elimination as well.

The quality of life in the city depends heavily on the facilities and programs, the knowlege and familiarity of The Farm and other such community arts establishments.

Children from Potrero Hill, for awhile, cared for their own urban farm in the housing project where they lived with their own rabbits, chickens and ducks loaned to them by The Farm. Some of these same kids took music classes, made a children's circus, went fishing, made ceramics, films and a greenhouse with their adult friends at The Farm.

The past shall speak for itself. The memories of great shows, one time experiences that only happen at that place will remain with us. The Farm is a part of San Francisco and now a part of San Francisco history? Not yet!!!

WE MUST NOT LET ANOTHER COMMUNITY CULTURAL CENTER GO

ASK YOUR SUPERVISORS AND CANDIDATES WHAT THEY ARE DOING TO PRESERVE SAN FRANCISO'S FARM.

ACT NOW!!! GO TO THE FARM TOMARROW AND BE THERE THURSDAY NOVEMBER 5TH

When the San Francisco Sheriff's Department arrives to evict THE FARM (CROSSROADS COMMUNITY) on the morning of Thursday, November 5th, will anyone be there to greet them?

You'd better believe it!

All day vigil to Save The Farm on Thursday, November 5th, at 1499 Potrero Avenue in San Francisco. (Near Army Street ramp of highway 101. Parking available behind La Raza Park on San Bruno Street.)

Non-violent resistance is an appropriate response to the destruction of people's culture. From the ashes of the International Hotel and the Goodman Building can rise an even stronger housing movement.

Arrive early, or camp out the night before. Come prepared to creatively express your outrage at the loss of this irreplaceable community resource.

Call the San Francisco Tenants Union at 282-5525 or Sheriff Hennessey's office at 554-7225 for updates and confirmation of times.

## What's Made People Pay Attention to You?

(Asked at Zellerbach Plaza)

Peter Rypins, 18, stock runner, Berkeley:

A lot of people take their work to lunch and take their work home. When I see that, I tell them to lighten up. That's just part of their life. They usually pay attention to what I say.

July 27, 1988

Tim Yohannon
Maximum Rock & Roll
P.O. Box 289
Berkeley, CA 94701

Dear Mr. Yohannon:

Per our conversation of July 26, 1988, the insurance company is now evaluating and pricing your renewal.

I need your help. The recent claim was only paid because the floor was wet that day from the rain. Also, there was slam or break dancing going on at the time. If you can provide me with a letter stating that there will be special measures taken to keep the floor clean and dry it will help us. Also, you must post signs that say "No Slam Dancing Allowed". I must have your letter state this. Upon receipt of your letter we can pursue the renewal quotation.

Please call me at your convenience if you have any questions.

Sincerely,

Curtis J. Perata

## Guidelines for Coordinators

**General:** The key to doing this job well is communication, and earning the respect of those who you work with. It's very important to maintain good communication with the other co-ordinators (with whom you should confer every half hour or so) and with volunteers, always staying on your toes yet keeping some extra reserve of patience and energy for crisis situations. If you feel stress, try to diffuse it within yourself or through humorous seriousness. Try to explain things without being condescending. It is mandatory to be diplomatic. Finally, you must work as hard or harder than anyone else in order to gain their respect. One of each group of three should be responsible for unlocking at the outset (usually though, Radley will be there before you, but you should arrive at least one hour prior to the starting time) and closing up at the end. Make sure the alarm is turned on (when the prong is at 6 o'clock) after you lock up. Double check to see that the door itself is locked (sometimes you can turn the key and pull it out, but the bolt didn't really go all the way shut).

**Outside Coordinator:** Your task wil be to make sure that people are doing their assignments, and to fill in the gaps when they aren't. Make sure people make the rounds, go down 8th St, as well as cover the tracks. You will also be the person to spot trouble before it happens. If a group of skins or rowdies arrive, it is your job to organize a welcoming party who can accompany you in a non-menacing way when you go talk to them. You should ask if they intend to enter, and if they are still being assholes, then it's your job to tell them they can't enter, that we have the right to refuse admission to those who don't relate to the place and its ideals. If you sense a potential for violence, then have someone standing by to go call the police. In some cases, you might want to call the police before you go have your talk, waiting until the police are within sight before asking them to leave. We have the right to ask them to not enter, and also to leave the area. You should also inform people who are too intoxicated that they can't enter that night. You should keep your eyes open at all times, watching for potential problems. If the police are called, it's a good idea to ask everyone hanging outside to get back inside. You can also tell the foyer coordinator to cut off ins-and-outs. If you need back-up, ask the foyer coordinator to get the word out to get a crowd for you. You will also be the person who will greet the police and explain the situation, round up witnesses, etc. Also, keep an ear out for scammers who are dealing dope, drinking, or giving their cards to others. Ask outside security to report to you on any problems. Also, make sure outside security people are picking up trash throughout the night. At the end of the show, make sure a few people will make a trip up and down the block with a trash bag to get the worst of it.

**Foyer Coordinator:** First job you have is to see that the poster for that night's show is made and posted outside. Then, once all the bands have arrived and it's time to get things under way, you should start the process of clearing the hall. Then, your job will be to make sure the cash box is brought down and opened, that the people doing membership are given their start-up money (it is $25, kept in the cash box, but seperate from the $45 start-up money for the door), as well as given new membership cards and pens. You also should make sure that the Inside Coordinator has turned in the band guest list to you before the show. You will then ask the volunteerss to meet and to decide who's working outside, inside, etc. Then, once the workers are all stamped, ask for band members to enter and get stamped. After that, the crowd can come in. Once the show is under way, you should help out by making sure everyone has enough small bills (usually that means taking big bills from membership and trading them for small bills from the door). Every so often you should collect the bigger bills from both boxes. Make sure you keep membership money and door money seperate. Membership money goes straight to the club and door money gets paid to the bands and club. You are also responsible for keeping the entrance relatively free, making sure non-paying people don't hang out in the doorway, and for keeping the line flowing in at the beginning. This means yelling out every few minutes that members can enter on one side, and those who need cards should enter on the other. This helps. Also, unless you know for 100% sure that someone who doesn't have a card is a member, people must now buy a new card for $2. No one is to be admitted to use the restrooms unless they have paid to get in. From time to time, clean up the tabletop, straighening out flyers, etc. Make sure the membership people are giving out those slips of info to new members (a supply is under the long bench in a box). While the last band is on, count out $45 from the door box, and take the rest upstairs and count in into piles of $100. Get a payment sheet from the lower left desk drawer, and enter the date and total door. Then, calculate out 1/3 and enter that, and finally enter the remainder for the bands. Make out your suggested split, and once the show ends, ask one member from each band to come upstairs to get paid. Show them your suggested split, ask if it's ok with everybody, make any adjustments that are necessary, and pay them. Get them to sign next to their names and count their cut again. Then, rubber band the house cut, rubber band the membership money, tag them with their totals, and put them in the cash box after you bring the boxes back upstairs (once the show is over). Find the cash log book in the lower left desk drawer, and enter the same into into that book. The cash box should now contain $45 and $25 start-up money for the next night (in small bills, plus your night's membership money and door money.

**Inside Coordinator:** Once jobs are signed up for, make sure the stage manager gets the names and guest list for each band (only 2 guests per band), and get that list to the Foyer coordinator. Make sure the bands know where to put their equipment (the headliner should put theirs in the back, behind the barrier, the 2nd band next to theirs behind the barrier, the 3rd band in front of the barrier, the 4th band also in front of the barrier, and the opening band goes directly on stage. There are no sound checks. Make sure the stage manager tells the bands how long their sets are. Check and make sure the stage manager is staying on top of their job, especially in terms of length of sets. Make sure that those security people assigned to watching side door and equipment are doing it, and ask if they need relief every so often. The side door person should only let people out that are carting equipment, and only they can re-enter. Hand stamps should be checked before letting people in. Side door person should not open the door to knocks from the outside. Your job also means watching for troublemakers in the pit. You should talk with them if you see their behavior as something that might lead to a fight. Tension is easy to spot. Let them know why you're requesting them to calm down or why they shouldn't be hitting people who aren't in the pit and don't want to be hit. Be familiar with who the "happy pit" people are, and ask their help in changing the mentality of a rough pit. If someone gives you lip when you ask them to cool off, ask them to go out into the foyer to talk, where you won't have to yell and where you can have a more sober talk. Make sure you have support. If someone needs to be ejected, get a group to help you out. Don't be physical unless necessary, and use peer pressuree to deal with it. Don't be afraid to ask the stage manager or the band on stage to stop until the problem ends. If outside security needs you to stop a show till a problem at the door gets settled, please act quickly, and explain it to the crowd. Your main job will be to avert interior problems before they explode, and keeping a show mood up. Work with Radley if you need house lights on (it helps cool off a crowd). Check out the bathrooms for destruction or flooding. Make sure they are supplied with toilet paper and paper towels (kept in the loft). At the end of the shows, help organize the clean up crews, hand out brooms, bring down gargage bags to replace the full bags (which should be dragged to left of the front door). Get the last band to clear their equipment in good time. Make sure the side door is shut (test it with a good push) before all the lights are killed.

Dear Gilmoids,

Too much of the work and responsibility here at Gilman is falling on too few shoulders. Yes, there are a regular amount of people who volunteer for various tasks, but they can show up or not as they please, and ultimately the main burdens are falling on about 10 of us, myself mainly.

This is a very unhealthy situation, one which I won't allow to continue much longer since it will only get worse. Too many experiments start out idealistic and gradually evolve into another bureaucracy, a leadership of just a few. It's all too easy for people to let that happen, and most so-called "leaders" thrive on that situation, but I won't. There are too many signs of this decay--not just the lack of people willing to take true responsibility for the decision-making--and the time and energy to implement those decisions. How can it be that a week or two after our most dangerous crisis with security, almost none of the "regulars" show up on a Saturday night to deal with the potential problem? Yes, everyone had a reason, but again the burden fell on a few--that's scary, as well as bullshit. Another sign of taking it all for granted is that many of the "regulars" hang outside during the opening bar ds nowadays, not bothering to check out/support the new groups. Too cool, or too secure?

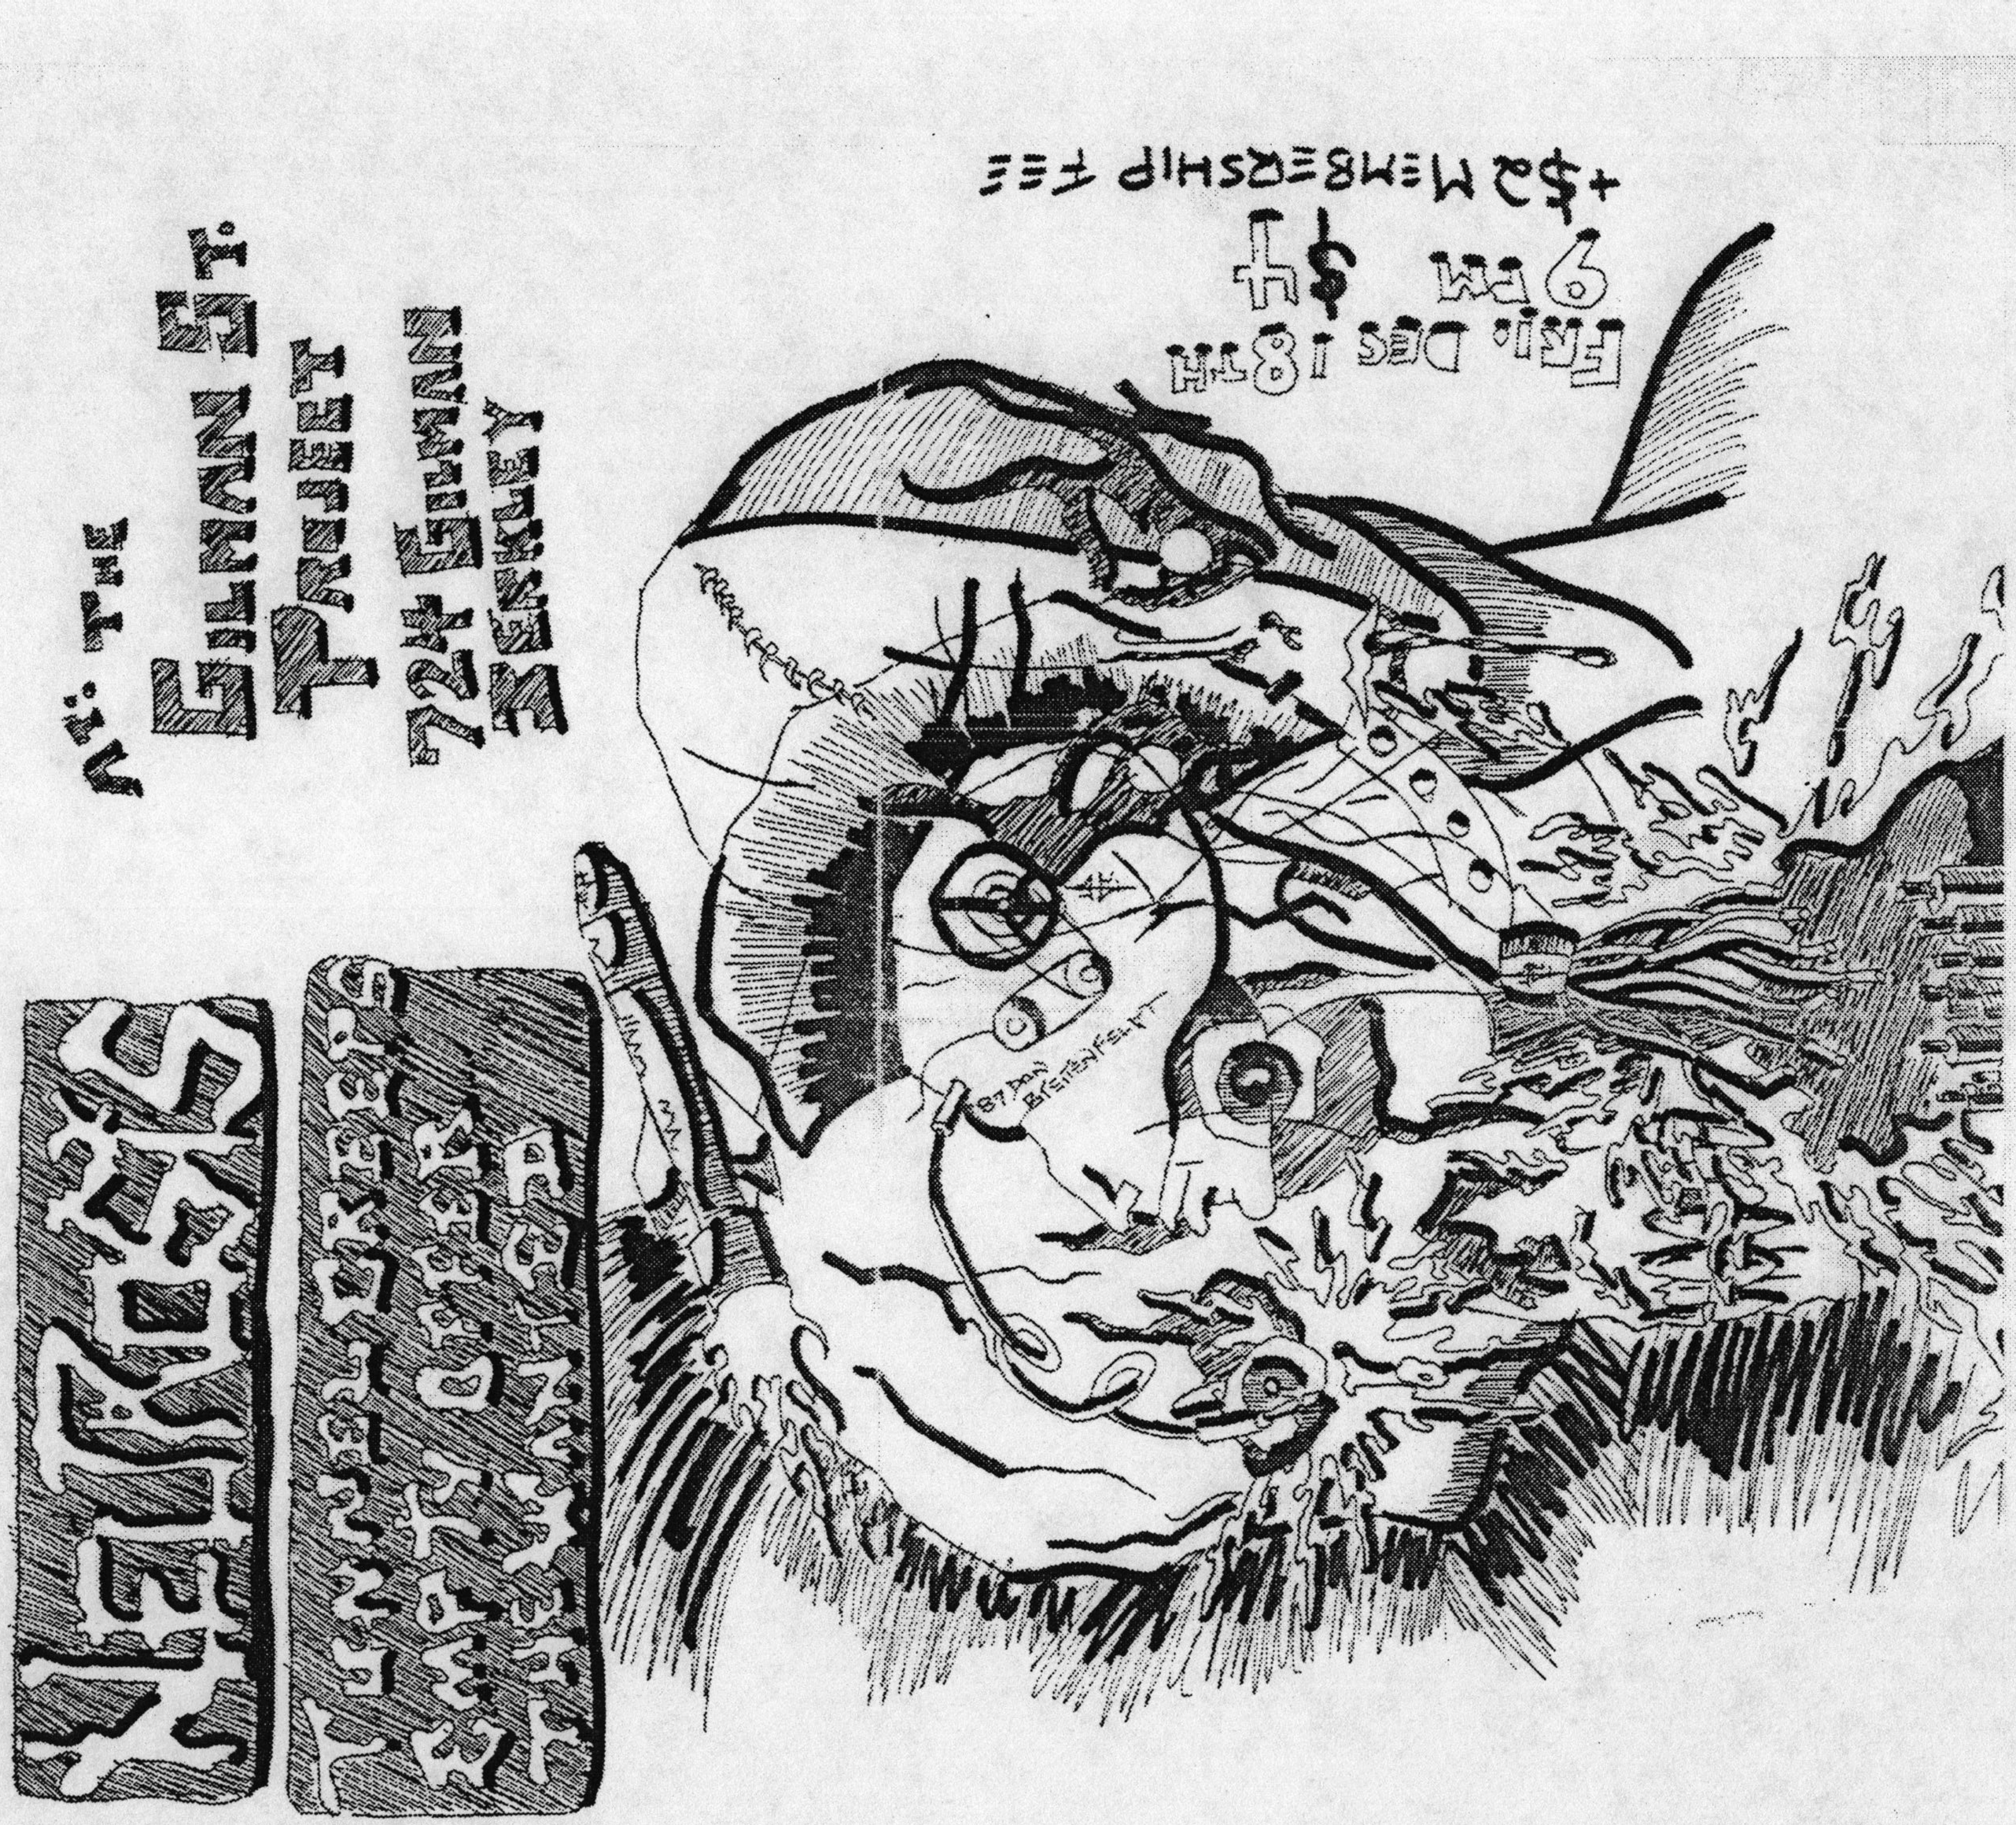

What I'm trying to get at is that unless there is a qualitative change of direction being made clear to me, a strong indication that many of the people who come here frequently are organizing to alter this situation and come forward with new plans for the operation of the club, there will be no club after January 1. It's too easy to assume this will go on as is, believing in the back of your mind that Tim, Brian, David, Paul, Jane, Martin, Radley, etc will take care of it all if you don't. Not so: Brian is leaving for a few months again, Jane is moving away, Tim is burning out under the stress of responsibility, and the others don't want to be caught dead (no pun intended) in the same situation I'm in now.

At the next meeting, Saturday December 5 at 8 PM, I will formally announce this. I hope you all take this seriously. Because I am the person who is legally and financially responsible, I can't walk away and hope that a few others will fill my shoes. It's either everyone gets together with their friends and, recognizing that Gilman will be gone soon, starts coming forward with plans and the time and commitment to implement them, or it's over. (One suggestion is that bands themselves--since they are already "organizations"--start meeting with each other to discuss how to get further involved in the operation of Gilman). I will gladly stay on to help with your "revolution", but a lot of you need to grow up, and maybe that's not too fair, but if you want this place, and want it healthy, you're going to have to demonstrate that its strength and power comes from you all, and not from a few fools who are doing most of the work.

Feel free to talk with me about this any time, because I don't want to "pick up my marbles and leave." I'd much rather help you all assume direct administration of this experiment.

Thanks,

Tim

## STUPID QUESTIONS (Not to Ask)

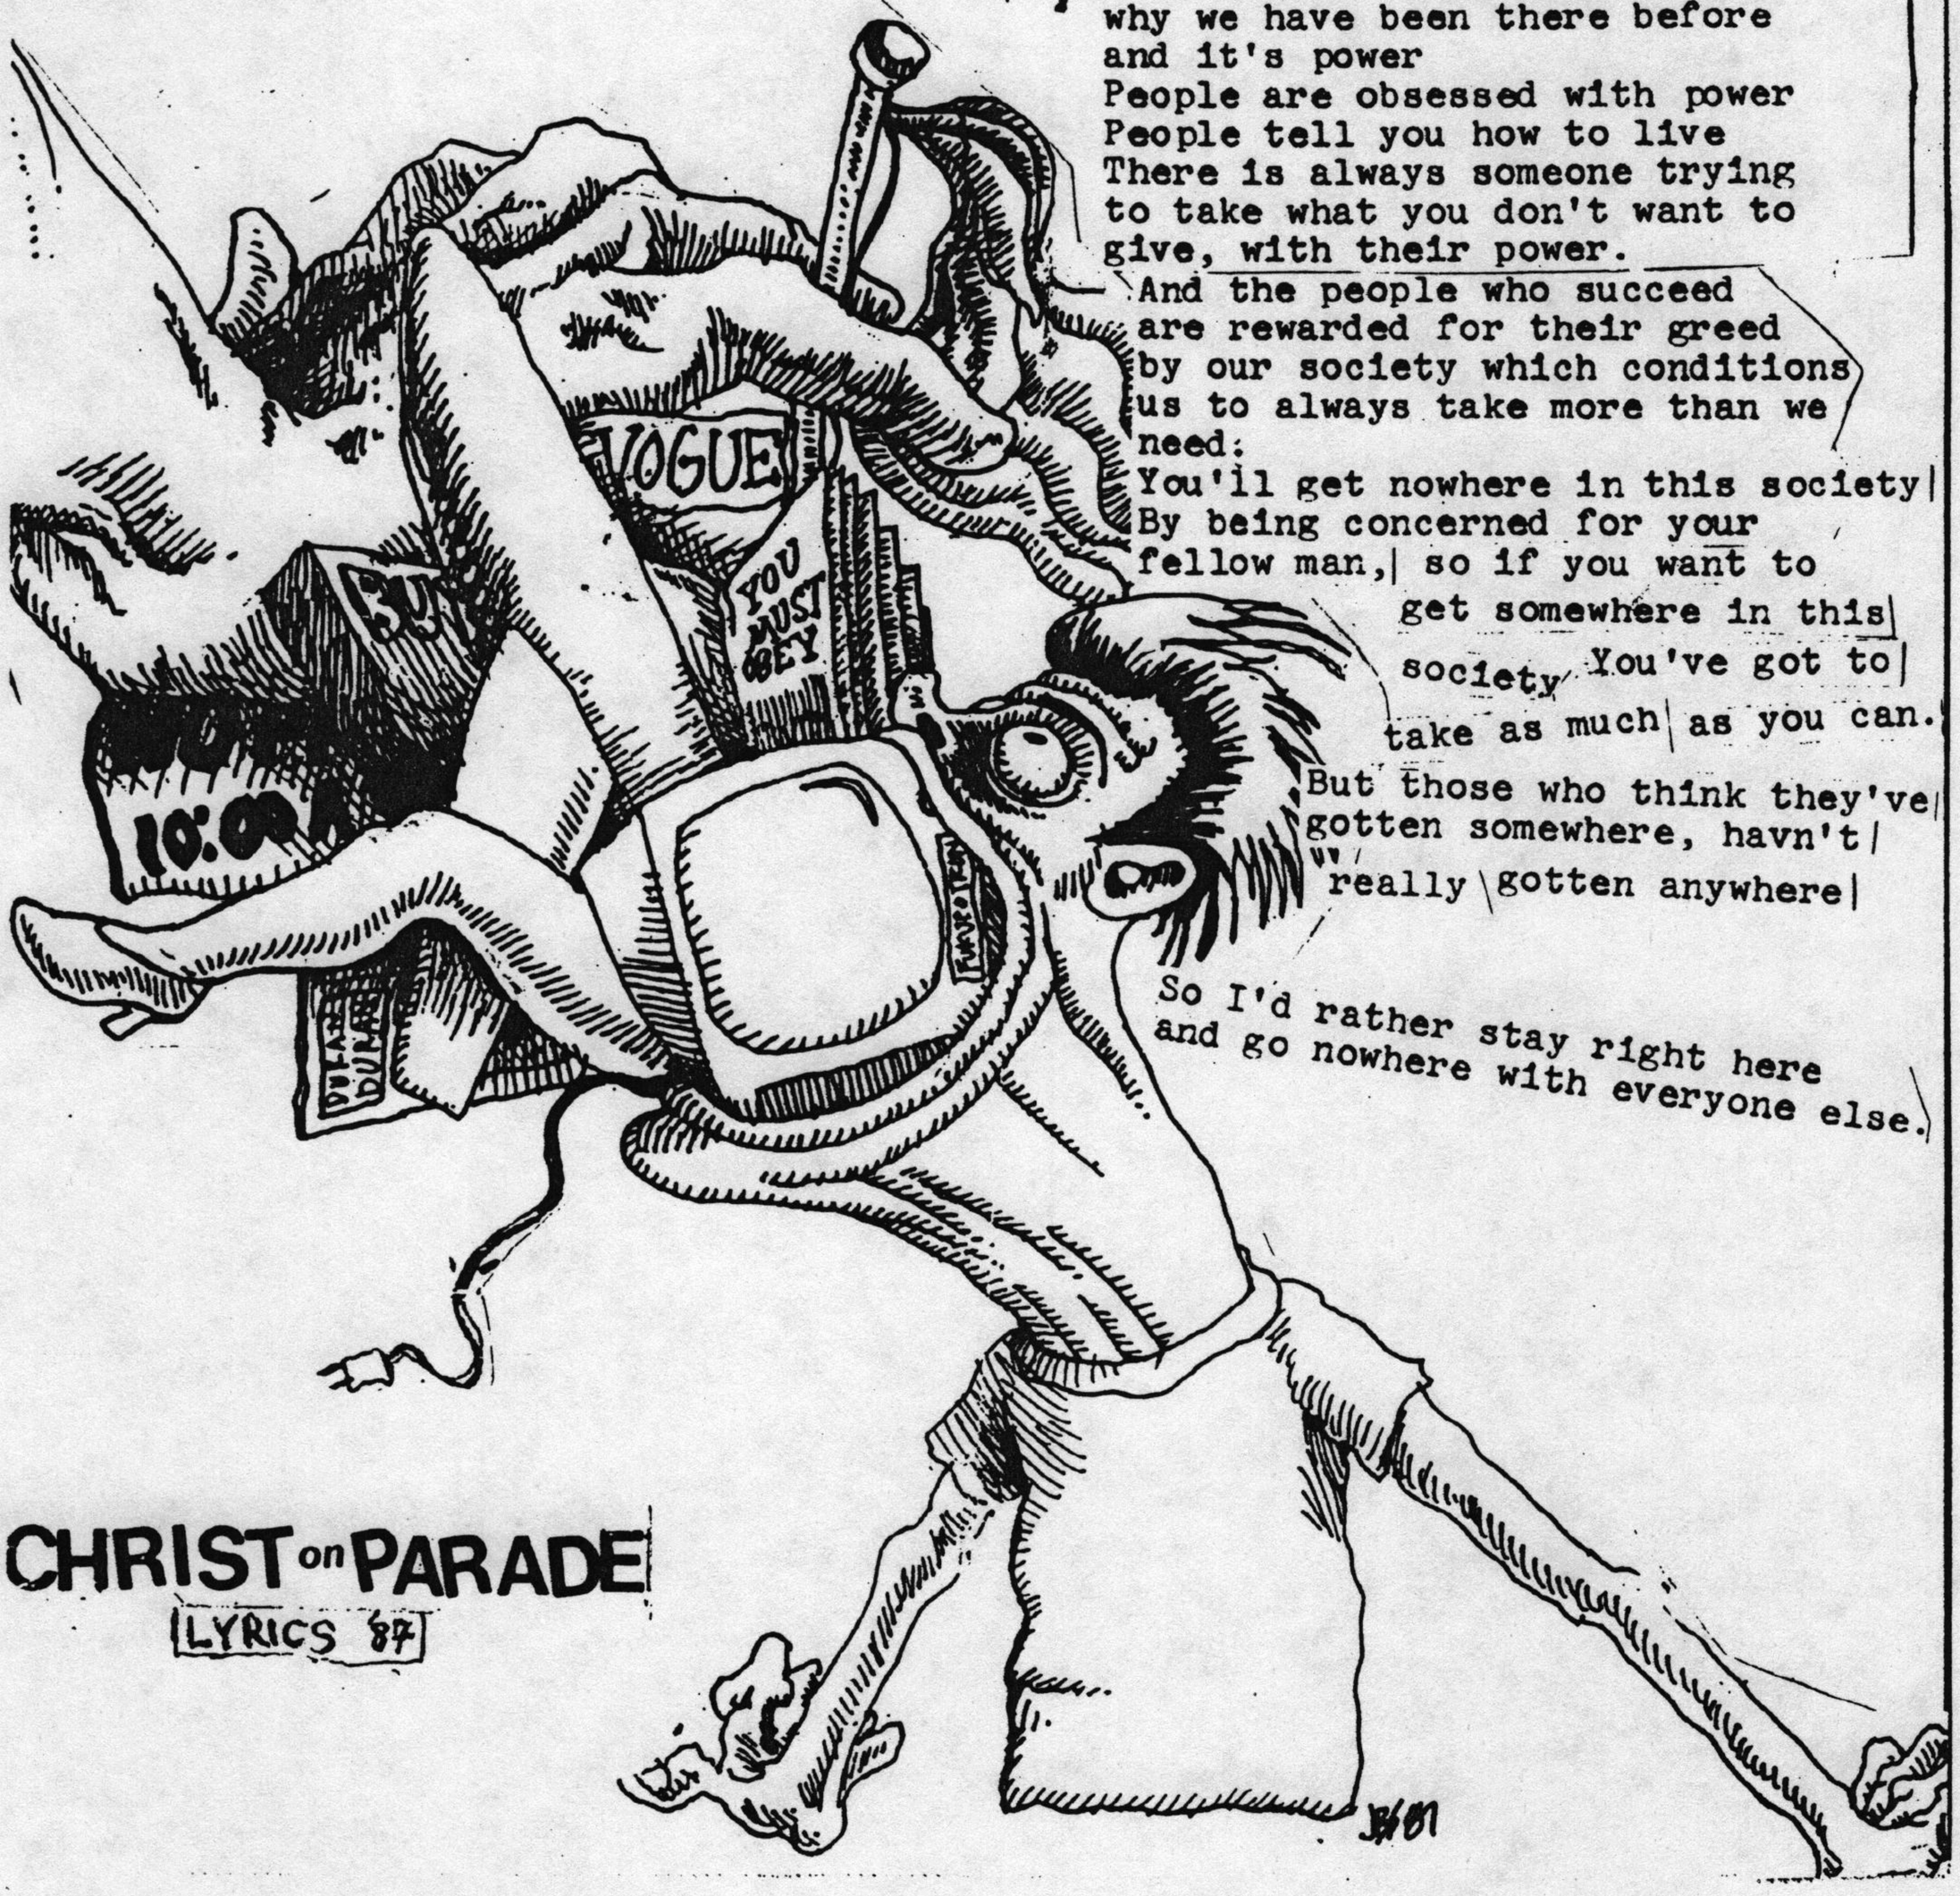

Are you what your supposed to be?
Do you take responsibility?
Are you aware of your possibilities?
Do you accept others for what they are?
Are you spontaineous in your behavior?
Do you have a good sense of humor?
Does the good of mankind concern you?
Do you work hard at whatever you do?
Do you ever try something new?
Or do you feel as if you've been thrown into this world?

## POWER&GREED

Evolution, Revolution, No Solution
Our blood is filled with greed.
It's the power-crazed people
Who are running this earth,and
They sit and watch the needy bleed,
Complete control is what they need
To satisfy their inner greed for
Power.
The media keeps the public blind
As man(un)kind destroys mankind
for POWER
The one reason why we may soon
be at war is the same reason
why we have been there before
and it's power
People are obsessed with power
People tell you how to live
There is always someone trying
to take what you don't want to
give, with their power.

And the people who succeed
are rewarded for their greed
by our society which conditions
us to always take more than we
need:
You'll get nowhere in this society
By being concerned for your
fellow man, so if you want to
get somewhere in this
society You've got to
take as much as you can.
But those who think they've
gotten somewhere, havn't
really gotten anywhere

So I'd rather stay right here
and go nowhere with everyone else.

## TEACH YOUR CHILDREN WELL!

CHRIST ON PARADE
LYRICS 87'

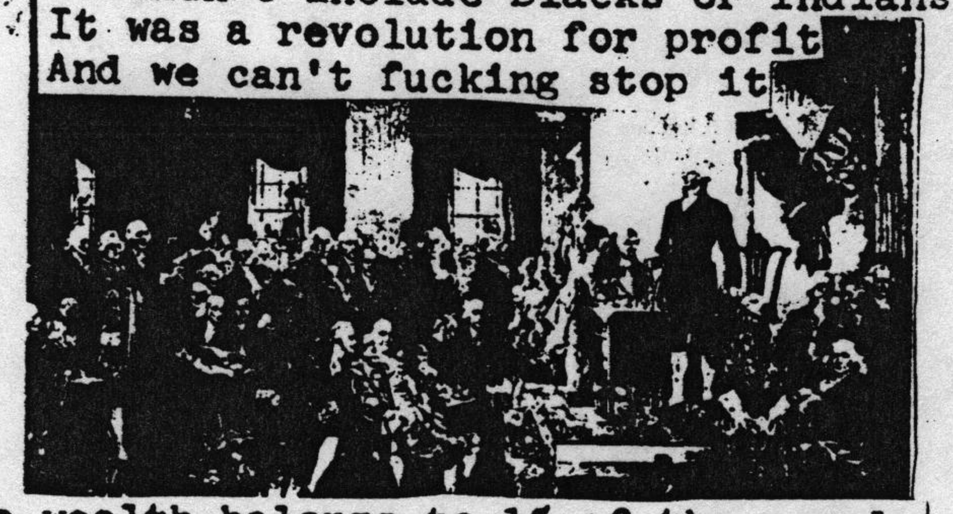

They keep your attention on things that don't matter
The right things to eat so you won't grow any fatter
The right things to wear, the right things to say
The friends that you have depends on how much you pay
But maybe someday if your lucky enough
And you buy all their synthetic crap
You can look like the girl in the magazine ad
Or the guy with the girl in his lap
You try so hard to be a good American
You want to live your life like the people on television
But to be a good American is to live your life in silence
And if you stand up for your rights they'll knock you down with violence
All you really hage to do, if you want them to approve of you
Is... Shut your mouth, don't complain, don't even try to think for yourself
Shut your fucking brain
The power that they have, is the power that you give
They take advantage of your ignorance to control the life you live
They process the people like they process the food
They process your children while they're being schooled
So when they grow up and reach their maturity
Their discriplined minds will respect their authority
So keep them in line, you teach them well
Then they'll shut off their minds and won't try to rebel.

## (what we are saying)

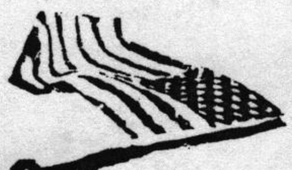

### CAPITALIST MANIFESTO

The Constitution is a lie
That the ruling class won't let die
To insure their wealth survives
And to put down those who would try...
When "We the people" was written
It didn't include Blacks or Indians
It was a revolution for profit
And we can't fucking stop it

90% of the wealth belongs to 1% of the people
While the rest get numbed beneath the steeple
A manipulation in the allocation of power
And the rich keep getting richer by the hour

The revolution was a lie
Brought about by those who would try
To perpetuate a system
That benifits only them
The founding fathers were rich
And their plans went without a hitch
Because in America today
The corperations still have their way

# RECORD COLLECTORS!

ON SUNDAY, MARCH 6TH, FROM NOON to 3PM, THE GILMAN STREET PROJECT WILL HOST ITS FIRST RECORD SWAP MEET. WE ARE HOPING THIS PARTICULAR SWAP WILL CONCENTRATE ON '70'S AND '80'S RECORDS, ESPECIALLY PUNK AND GARAGE VARIETIES. (ALTHOUGH SOME 60'S STUFF IS WELCOME) WE'D LIKE THIS SWAP TO BE A PLACE NOT JUST FOR RECORD DEALERS, BUT FOR CASUAL AND SERIOUS COLLECTORS AS WELL. THE PRICE FOR A BOOTH WILL BE $7, AND GENERAL ADMISSION WILL BE JUST $1. ANYONE INTERESTED IN RESERVING A BOOTH (MEANING YOU'LL BE BRINGING IN MORE RECORDS THAN YOU CAN CARRY IN ONE HAND), PLEASE SEND IN $7 (MADE OUT TO MRR), AND WE'LL SEND YOU AN ACKNOWLEDGEMENT. WE'RE ESPECIALLY INTERESTED IN SEEING PEOPLE FROM OUTSIDE THE BAY AREA TAKE PART, SO THOSE IN SOUTHERN CALIFORNIA AS WELL AS FROM AROUND THE WORLD ARE ENCOURAGED TO ATTEND AND BRING THEIR TRADEABLES/SELLABLES. ALSO, WE ENCOURAGE LABELS TO TAKE PART AS WELL.

THANKS!

## WE NEED HELP FIGHTING THE CLAMPDOWN

Whether you create, produce, or support independent records/fanzines, you're probably aware (or should be) of the current clampdown on, and general lack of concern with such projects. At this time, the majority of record stores and distributors don't want to bother with independent releases and won't think twice about raising the price as high as possible! This commonly accepted situation has to be dealt with and an alternative has to be established.

Blacklist Mailorder is a non-profit, direct mailorder operation that only carries independent releases. With a low mark up (20% to cover costs) and guaranteed payment (after a 60 day consingment period) Blacklist is working to create a functionable, reliable, no bullshit, independent distributor. We've been selling to the public for about two months but the work load is building up. Since no one receives cash payment for work Blacklist functions around donated time and effort. Currently we are in need of volunteers and encourage those seriouly intersted in becoming involved to come on one of the following dates for information and general orientation. Any amount of time donated is appreciated.

Blacklist has a non-hierarchial, cooperative atmosphere and has no boss-worker relationship.

Wednesday, July 20 - 7: 00 pm
Saturday, July 23 - 3:00 pm

Blacklist is located in S.F. at 181 Shipley St., at 4th between Folsom and Harrison.

WEDNESDAY, JULY 6, 9pm, 628 divisidero $6

Going into a little more exotic devices, we have first the Piss Sheath (R-11), which consists of a domestically manufactured "Texas Catheter" attached to a plastic tube, equipped with a rectal tip. Texas Catheters are used in hospital settings, where a male patient has incontinence problems, but where a regular (internal) catheter is not desired. The advantage of this less expensive device over the one we will next discuss, is the ease in putting it on and taking it off. However, the rubber sheath is of a material not much heavier than a regular prophylactic, hence not very durable, and needs to be replaced fairly often. It should be well flushed with clear water after use, dried, and stored in a sealed plastic container.

LA-8

The catheter portion will last longer if removed and stored in dusting powder.

The Latex Urine Enema device (LA-8) is a European import, and is made of much more durable materials. The C/B sheath is of heavy gauge black latex, with a built-in cockring. It takes a bit of practice to get it on easily, but plenty of dusting powder and a little patience will win out. It has a heavy duty tube, and a 9" gray latex Enema Nozzle (available separately as item LA-9). If this device is stored dry, well cleaned, and coated with powder, it will last a long time, and replacement parts are available.

# TRAGIC MULATTO
## STICK DOG

The posture of the patient for digital examination is very important.

**WRONG!**

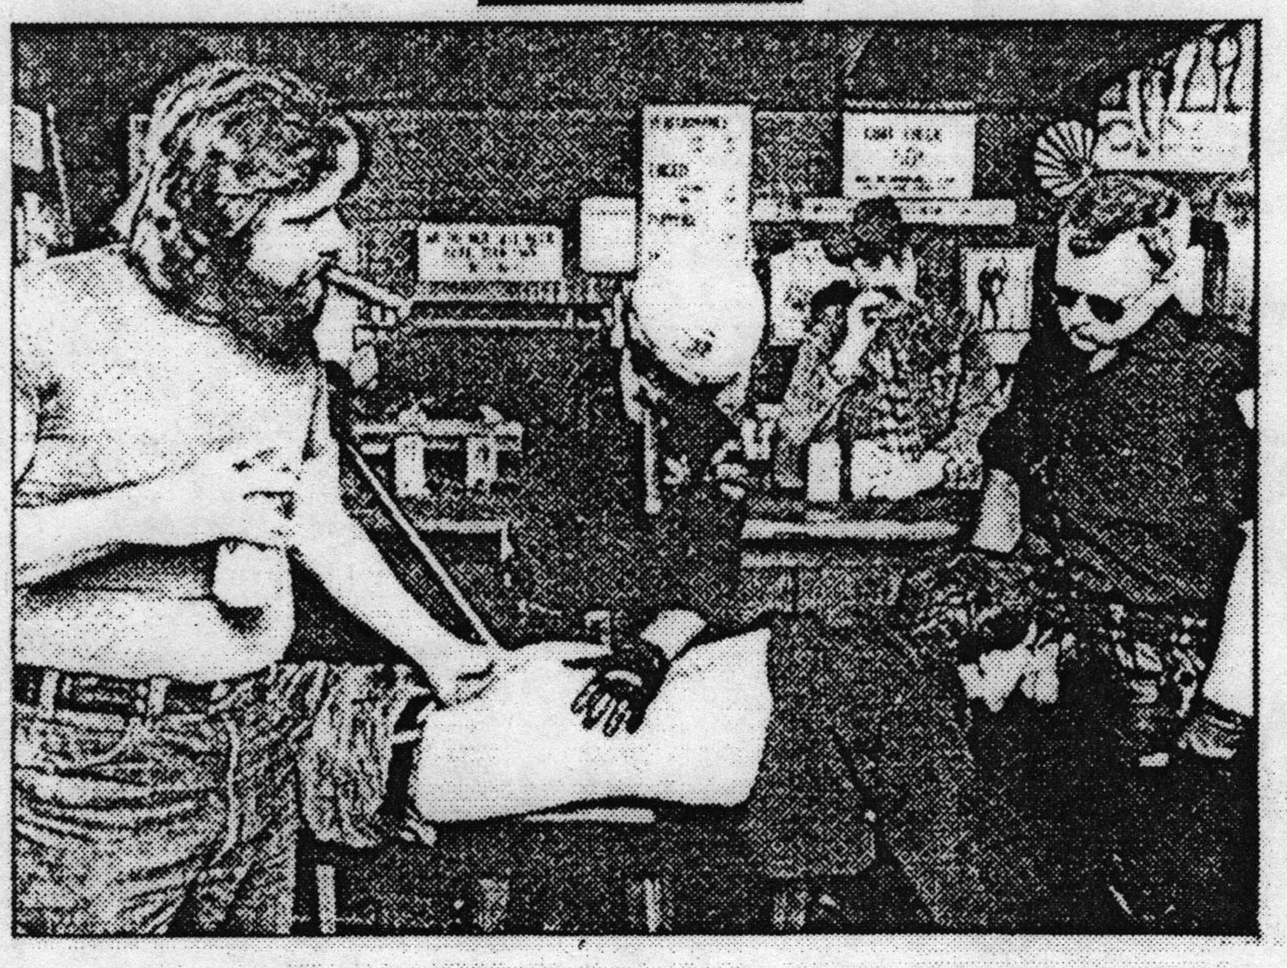

Fig. 15.
Incorrect Method of Digital Examination.

This method was formerly deemed the only proper method of making a digital examination of the anus and rectum. Contrast this with the following illustrations.

**RIGHT!**

In the 1920"s, the KU KLUX KLAN held meetings and cross burning ceremonies on the Coors brewery property in Golden Colorado with Aldolf Coors permission

" One of the best things the slave traders did for you is to drag your ancestors over here in chains"
Feb 24 1984 William K. Coors

" I have supported them with funds (JOHN BIRCH SOCIETY) and i support some of their thoughts and ideas "

Joe Coors

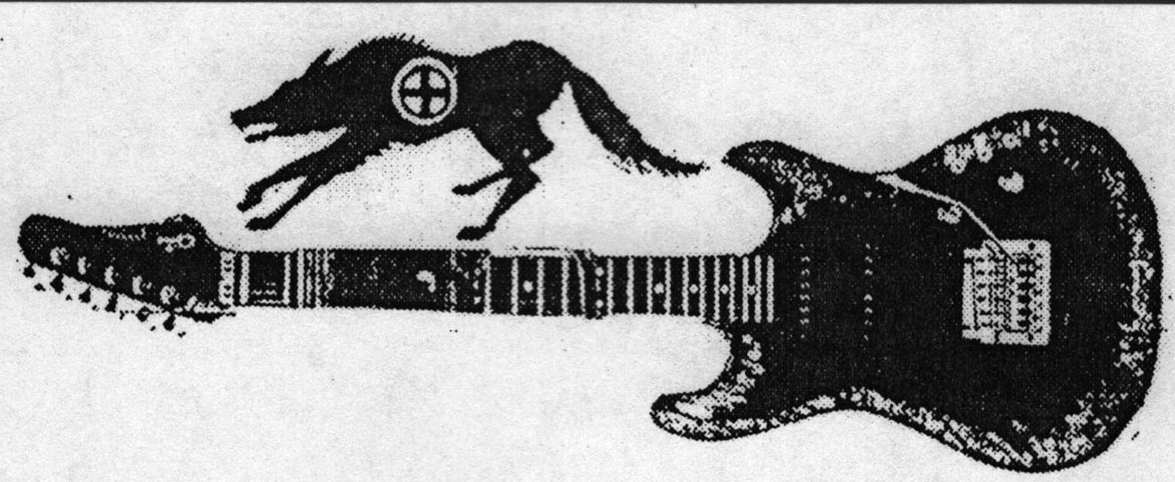

" It's not that the dedication among the blacks is less; in fact, it"s greater. They lack the intellectual capacity to succeed " William k. Coors

Mr. Coors, a longtime friend and financial supporter of President Reagan, said he had decided on his own to contribute to the CONTRAS and had N. Y. Times 5 22 87

"Coors ,Brewery is one of the CONTRA'S biggest financial supporters " Col Flaco U.S. Civillian Military Assistance

# ATTEND AMERICA'S FIRST ARYAN WOODSTOCK

## March 4th, 1989

## Celebrate the anniversary of "The Battle of the Alamo"

Great White Power bands from all over the U.S. will converge on California for an all day, all night music frenzy.

Speakers will include internationally known Third Position spokesman Tom Metzger - Director of White Aryan Resistance, John Metzger - Director of WAR Youth and Robert Heick - Director of American Front.

Bands that will be there are: Tulsa's - Boot Boys, Detroit's - Haken Kreuz, Wisconsin's - HammerHead, Philadelphia's - New Glory, and possibly others!

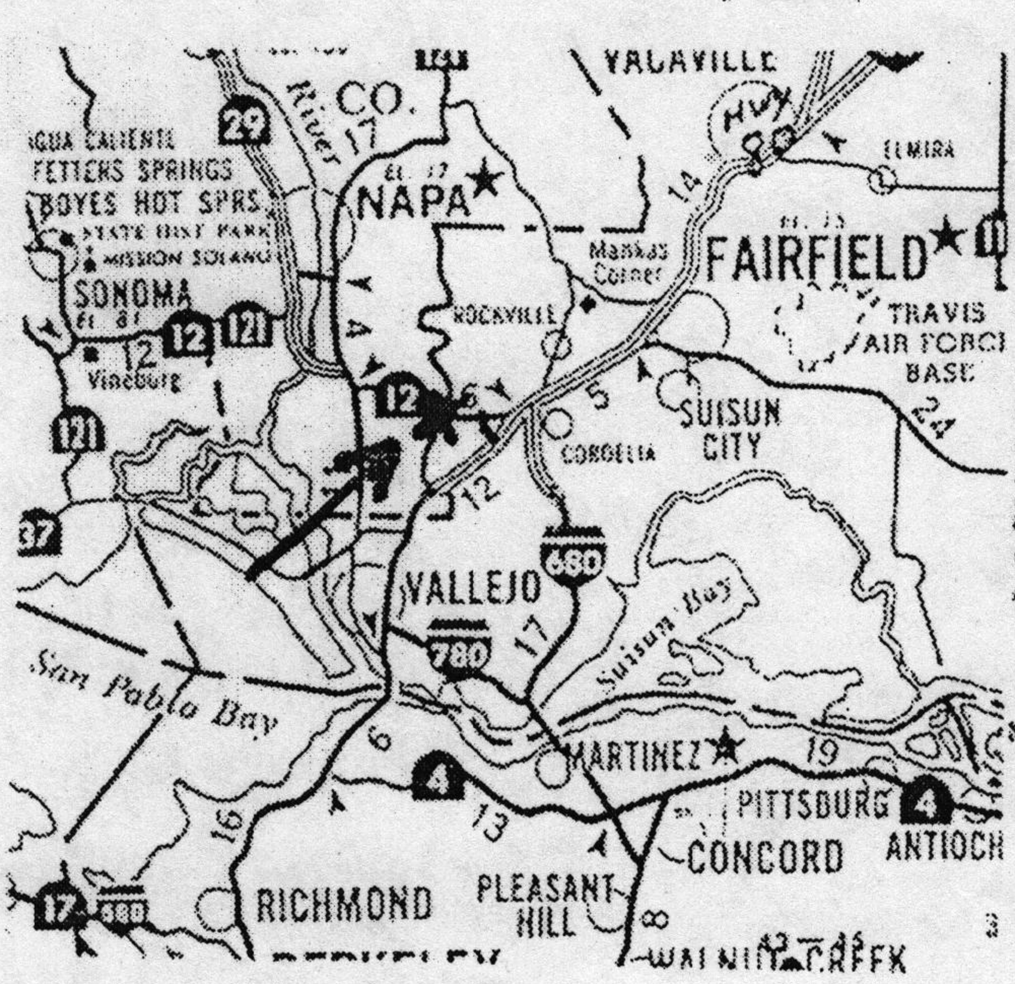

This historic event will be held on 70 acres of beautifully wooded private property near San Francisco.

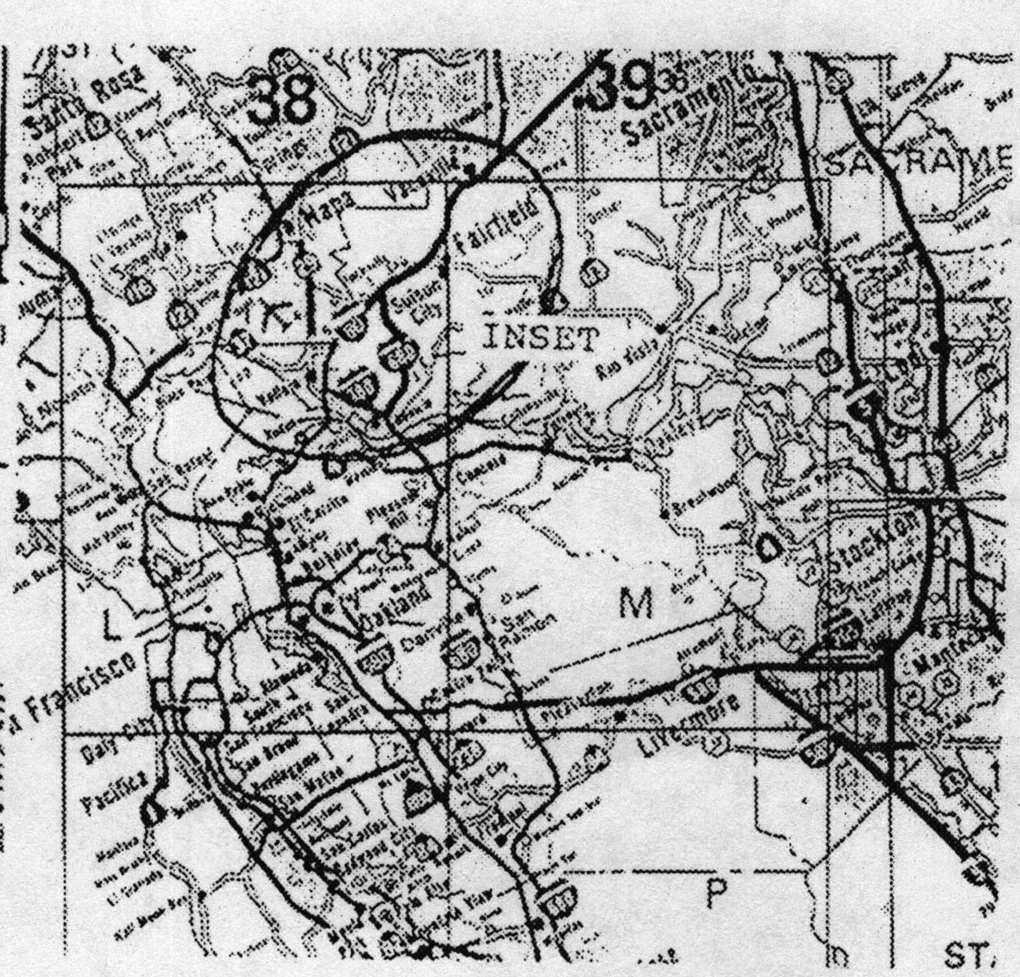

Plans for a Grand Prize drawing of a fine new firearm is planned.

Bring sleeping bags and tents. Bring food and beverages to last all through Saturday and into the evening.

Donation at the gate is $5.00. All vehicles subject to search. All firearms will be tagged and held by security. Security will be tight as a drum. Anyone not following the rules, including firelaws, will be ejected.

--- I will not be able to attend this year's event. Enclosed is _____ to help pay band expenses.

Coming
FROM SAN FRANCISCO, TURN OFF ON RED TOP ROAD FROM HIGHWAY 80 (NEAR 76 STATION). GO 2¼ MILES DOWN HWY 12. LOOK FOR ARYAN SIGNS.

A disaster. Almost no nazis showed except some brain-dominated skinhead punks and a bunch of alphabet-soup leftist manipulators. Plus it was also involved in Iran/contra coke smuggling in... guess where — Costa Rica!!! Oliver North's island affair. It rained. The owner of the land got 10 million cases
